A VISIT TO THE WATER PARK

There is a new water park in town. We go there on the first day of summer.

It has pools and water slides. There are sprinklers too. The slides are scary at first. After the first ride, we love the water slides.

The sprinklers are cool on hot days. One of the pools makes its own waves. All the kids try to surf the waves. It is really fun.

The water park can be very crowded. There are many kids and adults, but they do not allow pets.

We really like the ice cream at the snack bar. They also sell pop and donuts.

We all love the new water park.

Answer the Questions:

1. What is new in town?
2. What is scary at first?
3. What is cool on a hot day?
4. What do they love at the snack bar?

Grade 1 Reading Comprehension Worksheet

Read the passage. Then answer each question.

APPLES

Do you like apples? Apples can be red, yellow, or green. Each color tastes different. They are fruit. You can make apples into treats.

Apples grow on trees. They finish growing in the fall. Then you can pick them to eat. When you pick an apple, you twist it and then pull it off the tree.

There are 5 parts of an apple. The outside is the skin. The inside is the flesh. There are seeds inside of the apple. The stem is on top. Some apples have leaves by the stem. What else do you know about apples?

Answer each question:

1. When do apples finish growing?
2. What is the this passage about?
3. How many parts does an apple have?
4. What is something you wonder about apples after reading this passage?

Read the passage. Then answer each question.

SUN, STARS AND MOON

In the sky, you can see the sun, stars, and the moon.

The sun is up during the day. It is very hot. The sun gives us light and heat. Plants need the sun to grow.

We can see the stars at night. They give off light and heat, like the sun. That is because the sun is a star, too! There are more stars than we can count.

Some people see shapes in the stars. A group of stars that make a shape is called a constellation. Have you ever seen the Big Dipper? That is a constellation!

The moon is out at night. Sometimes we can still see it during the day! It does not give off light and heat.

Answer each question:

1. What is this passage about?
2. How are the sun and the stars the same?
3. What is a *constellation*? Highlight the words that helped you.
4. How is the moon different than the sun and the stars?
5. Do you know any other facts about the sun, stars, or moon? Write what you know.

Read the passage. Then answer each question.

FIRE ALARM

Beep! Beep! Beep! Do you know what to do if the fire alarm goes off in the middle of the night?

First, crawl to your bedroom door. Crawling is safer, since smoke rises. Feel the door with the back of your hand. If it feels cold, open the door. Look around. Find the closest door to outside, and crawl outside. Go to the meeting place your family picked, and wait for them to meet you.

What happens if the door feels hot? Do not open the door! Crawl to get a blanket, then crawl to your bedroom window. Open the window and let most of the blanket hang outside. Close the window to hold the blanket in place. Firefighters will see the blanket and know to come and get you. Stay under your window so they can find you easily.

Firefighters might look scary, but they are there to help. They have to yell, because they have masks on, so it is hard to hear them. Do not be afraid of the firefighters, they will keep you safe.

It is important to have a plan in place with your family in case the fire alarm goes off so that you all stay safe!

Answer each question:

1. What is the main topic of the 4th paragraph?

2. Where should you stay if the door of your bedroom feels hot?

3. Why should you hang a blanket out of your window?

4. What is one question you could ask a friend about fire safety?
